

Statement by Rabbi Simkha Weintraub

Member of Steering Committee of RHR-North America

RHR North America is appreciative of the work of your work here. Your deeds speak to many Jews in North America, and that is why it was easy to garner hundreds signatures in a relatively short amount of time. The home that we are concerned about is the joint home of Israelis and Palestinians, Jews and Arabs, which is being threatened by the unethical and unjust policy of home demolitions. I am certain that the number of signatures will continue to grow, and that we will continue to recruit more and more support for you on this and other issues
